Where to change topmenu?

Terradon / October 28, 2010 02:10PM

[Where to change topmenu?](#)

Hi, i am trying to change the menu at top of each page, but just can't find out where to do this?

I have tried to search in header.tpl, index_classic.tpl and some others.
i just can't find out how this menu is build up?

its about this part of the html-source code:

```
<div class="PhorumNavBlock">  
<span class="PhorumNavHeading" etcetera...
```

[Re: Where to change topmenu?](#)

There's not a single template file for that in the classic template. There are multiple places where the menu is defined. I searched through the code for constructions like the one that you mentioned, and came up with the following list of template files:

```
cc_index.tpl  
follow.tpl  
index_classic.tpl  
index_new.tpl  
list_threads.tpl  
list.tpl  
login.tpl  
message.tpl  
pm.tpl  
posting_menu.tpl  
profile.tpl  
read_threads.tpl  
register.tpl  
report.tpl  
search.tpl
```

[Re: Where to change topmenu?](#)

Thanks, i have found the needed code, they all look like:

Language: PHP

Phorum Support Forums / 5.2 Templates

Where to change topmenu?

```
<div class="PhorumNavBlock" style="text-align: left;">
  <span class="PhorumNavHeading PhorumHeadingLeft">{LANG->Goto}:</span>&nbsp;  {IF URL
->INDEX}<a class="PhorumNavLink" href=" ../mainmenu.php">Hoofdmenu</a>&bull;<a class=
"PhorumNavLink" href="{URL->INDEX}">{LANG->ForumList}</a>&bull;{/IF}{IF URL->LIST}<a
class="PhorumNavLink" href="{URL->LIST}">{LANG->MessageList}</a>&bull;{/IF}{IF URL->
POST}<a class="PhorumNavLink" href="{URL->POST}">{LANG->NewTopic}</a>&bull;{/IF}{
INCLUDE "loginout_menu"}
</div><br />
```

So it isn't possible to do this just on one place.

I needed to add a link to our mainpage, because i had troubles to integrate our own site-topmenu into the templates.

A big css topmenu, which includes php/mysql code for updates of user specific data.

Because we have huge performance issues with our own (ugly coded by ourselves) forum, we need to get this phorum up and running today. I need to find out later how to do that:)

many thanks for your fast answer! I had taken a day off for this:)
