confirmation email going into junk

swamp / April 29, 2008 08:51AM

[confirmation email going into junk](#)

Hi

The confirmation email for my system is going into the junk folder on users email accounts.

I've set up SPF records and normal mail goes into the inboxes, has anyone any advice for overcoming this error.

The confirmation email for this forum went into my junk folder too...

Thanks

SWAMP

[Re: confirmation email going into junk](#)

You might want to try a recent snapshot for the stable 5.2 tree or wait for 5.2.8. That version has some new code that reduces the risk for the confirmation messages being flagged as spam.
