Hi!

I just wanted to know, which AVATAR MOD did you use for this PHORUM? The AVATAR MOD i installed on my PHORUM doesn't look like this one: (This one, is easier to use)

It is a Phorum 5.2 avatar module.

You can find it here: [User Avatar Module](#)

For other modules, see the [5.2 module list](#).

Ok, does it work for 5.1?

no, 5.2 had many enhancements to allow this kind of modules.

And this forum is 5.2 so we are using the far better 5.2 version of the avatar module.
