[Git for 5.3 trunk?](#)

I am just started to learn Git and wonder if you have Git setup for 5.3

I am just only wanted to play with 5.3 to see what had been done with it so far and have no plan to put it on production server yet but wanted to create a template for it ahead of time etc like I used to do with 5.2 before it was released as stable.

[Re: Git for 5.3 trunk?](#)

yeah, master in git is 5.3.

phorum_5_2 is a branch in there.

A new template shouldn't be needed.
