The cvs changelog hasn't been updated in a while, just wondering what are you guys up to?

Hey there's 24 hours in a day :-)

My family went back home for the summer so suddenly I have extra time in the evenings to do stuff to my pages.

I could look into the permission system but I'm not sure how precise plans you have etc. Feel free to mail me if you think I could help.

I'm putting something into my Phorum anyway.
