[Re: big5 Chinese translation file](#)

The translation has some error showing the following:

Parse error: parse error, expecting `)" in /home/twporn/public\_html/baby/babyforum/include/lang/Big5chinese.php on line 250

Warning: Cannot modify header information - headers already sent by (output started at /home/twporn/public\_html/baby/babyforum/include/lang/Big5chinese.php:250) in /home/twporn/public\_html/baby/babyforum/include/users.php on line 62

[Re: big5 Chinese translation file](#)

i tried to merge the big5 one with the simplified chinese one, and then change the page encoding to Unicode, then saved it. it seems to work for me.

[Re: big5 Chinese translation file](#)

I had updated the file to UTF-8 version and it is saved as UTF-8 file

can used on 5.0.14a

[Re: big5 Chinese translation file](#)

Parse error: parse error, expecting `)" in /home/twporn/public\_html/baby/babyforum/include/lang/Big5chinese.php on line

I find that this problem is affected by some words

e.g. "é†" or "é‡" one ok, other not..

so, use utf-8 code is one of the solution to void this problem..
