Traditional Chinese (BIG5) translated

kalabu2k / July 31, 2004 02:00AM

[Traditional Chinese \(BIG5\) translated](#)

i translated phorum 5.0.7a to traditional chinese.
hope it can help someone!

[Re: Traditional Chinese \(BIG5\) translated](#)

sorry for that!

now i already post a new file called "TradChinese.php"
it is based on UTF-8

the king of galaxy -- Nismo 400R
bla ba ba ba, i'm lovin' it!

[Re: Traditional Chinese \(BIG5\) translated](#)

hi! good guy.

I can't Convert the UTF-8 "TradChinese.php"
to Simplified Chinese character gb2312.

Can you give me the big5 edition?
THX~

[Re: Traditional Chinese \(BIG5\) translated](#)

I'm using it but experience a painful failing.
the utf-8 works fine, still, it doesn't match the code which seems to be the forum default.

So, when I use UTF for recoding, the title doesn't show correctly, and vice versa.

Is it a problem of the lang file or of my settings?
