[Brazilian Portuguese language](#)

Hi everybody!

I became a Phorum user this week and I really liked it.

So I decided to try out a Brazialian Portuguese file.

Feel free to modify it and please send suggestions. (I guess there are a lot of mistakes, since I finish it 4 am ;-)

Greetings

LT Hoffmann

[Re: Brazilian Portuguese language](#)

Hi!

I just updated the Brasilian Portuguese file, I hope I didn't missed something new.

I added:

"ErrUserExists" => "Este nome já existe, por favor escolha outro nome.",

"MyPic" => "Minha foto",

"NoPic" => "-Sem foto-",

These 3 were different with my reference translation package from German(Du), so it should make it 5.0.13 now, right? If not, please leave me a Msg!

[phorum 5.0.16 - brazilian V 1.2 \(brazilian-portugese\)](#)

Toss e Camillo, muito obrigado!

In the meanwhile, I made 2 little updates, see the attachment below. This version is now called

phorum 5.0.16 - brazilian V 1.2 (brazilian-portugese)

with lang-file called "brazilian5016_v12.php"

If you or anyone else will make another update, letz say an update to V1.3, then change it directly in the file and the filename. Attachments please only as a zip-file.

Abraco e tchau

Updates:

Version 1.2 lang brasilian-portugese for phorum 5.0.16

V1.0 by Leandro Toss Hoffmann (lth [at] ig.com.br)

- Basis version

Update to V1.1:

- "ErrUserExists" => "Este nome já existe, por favor escolha outro nome.",

- "MyPic" => "Minha foto"

- "NoPic" => "-Sem foto-"

18.01.2005 by Camilla Câmpera

Update to V1.2:

- pt_BR@euro is not compatible with XHTML 1.0

[\[validator.w3.org\]](http://validator.w3.org)

- changed \$PHORUM['locale']="BR" to \$PHORUM['locale']="pt_BR"

- fixed \$PHORUM['long_date'] to Sao Paulo, SP (Brazil)

- fixed some tab-bugs at arraylines

- Added some comments within this file

[Re: phorum 5.0.16 - brazilian V 1.2 \(brazilian-portugese\)](#)

what is new to translate between

phorum 5.0.16

phorum 5.1.5-beta - Dev

?

bye,

irob
