[{Question} Number of posts and topics on index page instead of &quot;Folder&quot;](#):

Helo all. Everything is in the title. Who can I show the Number of posts and topics on index page instead of "Folder".

Thx.

[Re: {Question} Number of posts and topics on index page instead of &quot;Folder&quot;](#):

a folder has no topics or posts. they are in the forums in there.

you would need to select all the forums in each folder and sum up their posts/threads.

thats why it isn't there.
