How Do I Check Whitch User Logs in

Dr_Moe / October 03, 2004 12:00AM

[How Do I Check Whitch User Logs in](#)

Hi every one.

I'm new at PHP and I'm doing a web site using PHP and SQL. I have a Sing up page that adds a new record with a User name and Password.

I have a log in page that matches the user name with the password.

I have a page that goes after you log in But it dose not get whitch user is log in.

I hope that someone could help. Thanks

[Re: How Do I Check Whitch User Logs in](#)

TYou must store the userdata into a cookie or session.
