[Read only phorum?](#)

Hi,

I wanna set all boards in a old 3.4.8a phorum in a read-only modus. But I cannot find the possiblity in the admin-area or a advice here. What I have to do?

[Re: Read only phorum?](#)

phorum3 has only the option to fully *stop* the forum, phorum-5.1 has "read only"-mode too.

there is something like a workaround:

you can require a group for the forum and set the forum to "login to post".
