[Mention &quot;New messages&quot;](#)

Hello,

My phorum is composed of three forum and I would wish that the mention "New messages" appear on the index.php file (forum list).

It is possible ?

Thank you for your help and sorry for my english because I'm a french ;-)

[Re: Mention &quot;New messages&quot;](#)

this works with phorum5. phorum3 doesn't support that.
