[Phorum Plugin for Social Engine](#)

Hi everyone!

Has anyone integrated **Phorum** into [Social Engine](#) by **Webligo**? I would love to be able to do this and keep my years of Phorum into my new Social Engine Site and continue to display the Vintage Threads which we love. I need help *heh*

Thank you!

OMG OMG OMG! You so Rule!!

I love Phorum and have been using it for years and I really wanted it to be in my new site using Social Engine! You just made a friend! Hurry hurry hurry *lol*

Thanks timani

After much blood sweat and tears and two days of sitting i think i got it done. it looks like its a pretty solid working version but i have to add some comments to the code but its working pretty smooth as far as i can tell. i will update you when i am done.

Done and Working! Ok so social engine is proprietary and i dont know if they would like me posting their code, and dont want to get in any trouble. But it was pretty cool, only about 30 or so lines of code. till i hear form them that its cool you can PM me and i can send it to you or anyone who needs it before i just post it.

Thanks

Tim
