[Folders Icons](#)

Hi

I have hacked 3.2.11 so it has folders (animated for busy threads) like UBB.

If any one wants me to post the code please let me know (and where i put it)

[\[www.brightonlife.com\]](http://www.brightonlife.com)

Also using pretty much all the emotion icons that come with MSN messenger -> thats using the bult in plug in though -- so no hacking by me there!

Matt

[Re: Folders Icons](#)

Hey, we live in free country, so it's free forum, post any hacks you have, somebody will defiantly use it.

[Re: Folders Icons](#)

although your hack doesn't seem to work with Threaded View.

So it's probably giong to be in Beta Hcks

[Re: Folders Icons](#)

Hi Matt .. please post your secret code for those neat folder icons!!!

Thanks much! :)

Overdrive / July 21, 2001 12:53AM

[Is this a mysterious Secret???](#)

Everyone keeps talking about the "built in plug-in" for adding folder and smiley icons. I know how to access it in admin but how in the world do you use it?

Please help!

[Re: Folders Icons](#)

Hi

Please send me hack for those folder icons (Forum 3.2.11).

Thank You

Ota

[Re: Folders Icons](#)

could u post the code & images?

bbr / August 10, 2002 08:43AM

[Re: Folders Icons](#)

dude, thats one pretty wicked forum :D

songster / August 24, 2002 11:04AM

[Re: Folders Icons](#)

Nice icons, would you send the code to me?thx.

DrZaytsev / November 02, 2002 12:03PM

[Re: Folders Icons](#)

Could I have this hack>?

MikeeX / January 14, 2003 04:48PM

[Re: Folders Icons](#)

I too would love to use this hack, anyone have info on getting this up an going? Also, the roll overs are sweet!! Info on that too plz.

[Re: Folders Icons](#)

Could you send me the code, please.

thx.

Ontneuten / March 02, 2004 09:51AM

[Re: Folders Icons](#)

could you send me the code?

that forum is sweet...

MattyC / March 02, 2004 10:26AM

[here's the code](#)

file: include/threads.php (this is original hack from v3.4.4-dev)

You will need to create the folder images and upload them to phorum/images directory.

hot_red_folder.gif

red_folder.gif

hot_folder.gif

folder.gif

and also set the variable \$hot_folder top the hot threshold level (i.e. number of posts before u get a flaming folder ;)

```
<?php
```

```
if ( !defined( "_COMMON_PHP" ) ) return;
```

```

settype($read, "boolean");

if (!isset($$phcollapse)) {
    $$phcollapse=0;
}
?>
<table class="PhorumListTable" width="<?php echo $ForumTableWidth; ?>" cellspacing="0" cellpadding="0"
border="0">
<tr>
<td class="PhorumListHeader" <?php echo bgcolor($ForumTableHeaderColor); ?><FONT color="<?php echo
$ForumTableHeaderFontColor; ?>">&nbsp;<?php echo $ITopics;?></font></td>
<td class="PhorumListHeader" <?php echo bgcolor($ForumTableHeaderColor); ?> nowrap="nowrap"><FONT
color="<?php echo $ForumTableHeaderFontColor; ?>"><?php echo $IAuthor;?>&nbsp;</font></td>
<?php if ( empty($read) && $$phcollapse != 0) { ?>
<td class="PhorumListHeader" align="center" <?php echo bgcolor($ForumTableHeaderColor); ?>
nowrap="nowrap"><FONT color="<?php echo $ForumTableHeaderFontColor; ?>"><?php echo
$IReplies;?>&nbsp;</font></td>
<td class="PhorumListHeader" <?php echo bgcolor($ForumTableHeaderColor); ?> nowrap="nowrap"><FONT
color="<?php echo $ForumTableHeaderFontColor; ?>"><?php echo $ILatest;?></font></td>
<?php }else{ ?>
