How come my topic just disappeared ????

I just can't see why it bothered anyone on here !!! Damn, I was just searching for some information and help, I posted a question about Graphics for Phorum in the "Graphics for Phorum" section, and somebody deleted it ????

What the hell ??? I don't know what I've done wrong, please let me know !

Wow, well if I did that I'm sorry... I ASKED if there was a way to do something I know nothing about, maybe, just maybe you could at least have told me I should have posted it somewhere else ? I mean, it's not that this Forum is overcrowded or something right ? I really thought I might get some help, my problem was all graphics oriented, I'm really sorry it bothered ya.

Too bad for me.

Nevermind, go on this way.
