[Profil like Invision](#)

Same logo than the Forùm Invision Power Board....

oki ù have all "image" and the "profil.php".....

ù need only to delete yoùr folder "profil.php" in yoùr server and to pùt the new one...And next to pùt all "images" in the directory "images"...Finish.....

[Re: Profil like Invision](#)

it's a screenshot....
