Module: Attachment Watermarks

Joe Curia / July 06, 2008 09:52PM

[Module: Attachment Watermarks](#)

This module will allow you to place watermarks on attachments. The watermarks can be placed in a variety of locations. Gif, Png, and Jpg images are supported.

Installation and Usage:

This module installs like any other module. Be sure to set the default watermark text and change the other settings to suit your needs.

Todo:

- Add support for a graphical watermark.
- Add the optional ability to set the watermark when posting.
- Add the option ability to disable the watermark when posting.
- Add the option to apply watermarks only to certain images or certain forums.
- Add further features as requested or as they pop into my head.

Joe Curia (aka Azumandias)

Modules:	Admin Mass Email	Automatic Time Zones	Enhanced Custom
	Profiles	Post Previews

[Re: Module: Attachment Watermarks](#)

looking good! Can't wait for the graphical watermark support.

[Re: Module: Attachment Watermarks](#)

Just gave this a try, but sadly it doesn't add any water marks.

Tried setting it on solid too.

[Re: Module: Attachment Watermarks](#)

Does not work on a version 5.2.13

Please help! :)
