[remove all Favorites](#)

how do I remove all of the favorites in the control panel? It will always be a favorite.

[Re: remove all Favorites](#)

I have no idea what you are talking about.

There are no "favorites" in the stock phorum control panel.

[Re: remove all Favorites](#)

Sorry,

we use the module Favorite Forum. I have the "list.tpl" and the "index\_new.tpl" not edited. In the control center could add or remove favorites. Could not completely remove them. It always remained a favorite.

How can I remove them all?

thanks

masei1202

[Re: remove all Favorites](#)

I'd recommend to post this question in the thread of the module so that its author gets notified.

[Re: remove all Favorites](#)

masei1202,

Thanks for reporting this bug. I have fixed it in the latest version of my [Favorite Forums](#) module.
