[Re: Phorum.org now hosted in Germany! Please report any issues you encounter](#)

"Default" Time Zone has changed.

Users may correct this in their Control Center at Options\Forum Settings.

Hi, I seem unable to download any of the modules, zip or tar files in the modules forum, I'm getting a 404 error from the links.

Cheers

Phil

Thanks Thomas, all working fine now.

Cheers for your time.

As I have stopped working your forum via ip Germany. Fortunately, he recovered. Maybe the problem is my proxy (advanced.name if matters), or any system settings.
