[Language: ????-Simplified Chinese-UTF-8](#)

This is a Simplified Chinese translation for UTF-8.  
???????UTF-8???????????

[Re: Language: ????-Simplified Chinese-UTF-8](#)

I installed and everything works okay except the fonts under "Posted" (time) column don't show correctly. If I change IE encoding setting to "Simplified Chinese" instead of "UTF-8", then the Chinese fonts show correctly under this "Posted" column but incorrectly under all other columns. Can you advice how to modify this? Thanks.
