Sorting Threads by Most recent post

fred / December 01, 2000 11:23PM

[Sorting Threads by Most recent post](#)

I've been trying to sort the top level threads, so that those with the most recent post appear on top. Our first few attempts have failed.

Am I missing something obvious here? In other words, is the code already able to do this sort? If not, has anyone done this?

Any advice/ideas are appreciated.

[Re: Sorting Threads by Most recent post](#)

i cant get it to work also.

has nobody an idea how to do this?

thanks

tomse

[Re: Sorting Threads by Most recent post](#)

Come on people, this hack is out of my league but it can't be THAT hard? Does nobody know how to do this?

Vulpes / March 07, 2001 01:39AM

[Re: Sorting Threads by Most recent post](#)

You probably can do it, and i'll look how to do it tonight. (if u wont be able to see anything tomorrow, i probably messed up the board :))

[Re: Sorting Threads by Most recent post](#)

[update]

sorry, didn't have time for it today.

[Re: Sorting Threads by Most recent post](#)

How about today?

Vulpes / March 15, 2001 11:20AM

[Re: Sorting Threads by Most recent post](#)

i tried it couple of days ago, no luck.

[Re: Sorting Threads by Most recent post](#)

It would (in theory) be easy to do in collapsed view but not sure how the hell u would do it in expanded vew (@!#\$ loads of nested queries!) -> I suppose u could not bother when expanded seeing as its only Phorum that does this type of thing.

Phorum 3 forums (READ ONLY) / Mod Requests and Suggestions (READ ONLY)

Sorting Threads by Most recent post

I will have a go on my forums in collapsed view over the next few days

[Re: Sorting Threads by Most recent post](#)

Any luck on this one yet? When I posted the request, I meant of course to have this in collapsed view only. It would be close to meaningless in uncollapsed view. Please, someone?

Matt / April 04, 2001 12:40PM

[Re: Sorting Threads by Most recent post](#)

Next version of phorum is gona have it anyway so I didn't bother.....

see [www.phorum.org]

[Re: Sorting Threads by Most recent post](#)

true, my board is running on the latest beta alreedy :happy:

Matt / April 04, 2001 04:33PM

[Re: Sorting Threads by Most recent post](#)

i noticed you were running 3.3.0-dev any problems with it?
do you have any inside info on when it will be released -

same for v4 too....

:)

Vulpes / April 05, 2001 07:54AM

[Re: Sorting Threads by Most recent post](#)

well, i don't know about 3.3 but People in dev team told me that they upload beta of piv while biran is gone to that conference.

Kicirici / April 11, 2001 04:10PM

[Re: Sorting Threads by Most recent post](#)

It is done. You have even three sorting options. See [budo.cz]

[Re: Sorting Threads by Most recent post](#)

Good for you. It seems that you intend to keep it for yourself, so it won't do the world much good...

Timothy / May 30, 2001 08:27AM

[Re: Sorting Threads by Most recent post](#)

I think the following should be done:

Phorum 3 forums (READ ONLY) / Mod Requests and Suggestions (READ ONLY)

Sorting Threads by Most recent post

1. add a field to each thread called 'lastpost'
 2. update 'lastpost' each time post.php is called to post a new reply
 3. list.php should have ORDER BY lastpost DESC
-

Matt / May 31, 2001 11:25AM

[Re: Sorting Threads by Most recent post](#)

Seems that Kircirci's forum is broke!

Fatal error: Call to undefined function: myhtmlspecialchars() in /httpd/html/budo/forum/post.php on line 217

Has anyone sorted the float to top yet. I didn't bother as phorum 3.3 is gona have it .. but they seem to be taking an age to release it so i may well have to get cracking on hacking 3.2.11

Matt / May 31, 2001 11:27AM

[Re: Sorting Threads by Most recent post](#)

p.s. vulpes... i take it this forum is 3.3-dev? do you have a working standard copy you can email me .. i tried out some of the cvs dumps on phorum but they always seem to be error prone

Vulpes / May 31, 2001 11:46PM

[Re: Sorting Threads by Most recent post](#)

you need to add some stuff to the tables, also run update script. It should work after that. Mine runs on hacked 3.3-dev

Guy Redwood / June 29, 2001 01:31PM

[Re: Sorting Threads by Most recent post](#)

where do you get 3.3-dev from. I need to update our phorum to get the threads sorted by posts and I don't like the new layout of phorum 4. You only seem to be able to get 3.2 or 4 Alpha

I've been trialling other boards with the users to fix the sorting - but they just love the phorum layout - which is good - cos so do I.

thanks

Guy

Guy Redwood / June 29, 2001 05:01PM

[Re: Sorting Threads by Most recent post](#)

I've found 3.3-dev in under he CVS snapshot on phorum.org - and it looks good :-)

I've switched on 'float to top' but it only works with new posts - the rest of the posts have a latest reply date of 1970 - looking at the tables in mysql it's not obvious how the thing works.

any thoughts?

Guy Redwood / June 29, 2001 06:09PM

[Re: Sorting Threads by Most recent post](#)

fixed the reply date with the following sql call on each of the phorum tables

UPDATE tablename SET modifystamp=UNIX_TIMESTAMP(datestamp);

but it doesn't list the number of replies :-(in 'float to top' mode

so close yet so far....
