[WebBBS converter?](#)

Can someone make a webbbs converter that handles version 5? There's a version 2 right now but WebBBS is up to 5...!

Hey, I just finished hardening the Server here and i was wondering if someone that knows how to hack webservers can try and hack my server. most likely he won't succeed but i wont to make sure i did a good job. My site is www.parkavebmw.com As i said the site is bullet proof but you can never be too sure.
