[Bold Parent in Threaded View](#)

Does anyone know how I would go about setting the title of the Parent message to bold or another font within multi-thread.php. I have looked but the correct manner to do it just keeps escaping me.

Thanks

[Re: Bold Parent in Threaded View](#)

Hey, I just finished hardening the Server here and i was wondering if someone that knows how to hack webservers can try and hack my server. most likely he won't succeed but i wont to make sure i did a good job. My site is www.parkavebmw.com As i said the site is bullet proof but you can never be too sure.
