&quot;last post&quot; feature in phorum5 ... implement it in phorum 3?

---

Don / August 11, 2003 01:05PM

[&quot;last post&quot; feature in phorum5 ... implement it in phorum 3?](#)

i find this "last post" feature really useful as my board doesn't get a lot of traffic and people should see who the last poster is ...

[Re: &quot;last post&quot; feature in phorum5 ... implement it in phorum 3?](#)

Sorry for the French language, this script works on Phorum 3.2.1 and upper  
<?php

```
// ----- //
// Show the n last posts in Phorum. //
// ----- //
// Auteur: J-Pierre DEZELUS //
// Email: jpdezelus@phpinfo.net //
// Web: [www.phpinfo.net] //
// ----- //
//you may secure the following lines adding an include file
$cfgHote = "localhost";//
$cfgUser = "";//username of the DB
$cfgPass = "";//password
$cfgBase = "";//name of the DB

$cfgTable = "";// name of the table you want to show the last posts (add a request in forums tables + while if you
want to search in all the tables)
$cfgRep = "";
$cfgRead = "read.php";

$nbMsgForum = 10; // Number of last post to show

// connexion à la base
mysql_connect($cfgHote, $cfgUser, $cfgPass);

echo "The ".$nbMsgForum." last posts - ";

// Nb msg today
$sql = "SELECT COUNT(id) ";
$sql .= "FROM ".$cfgTable." ";
$sql .= "WHERE approved = 'Y' AND datestamp LIKE '".date("Y-m-d")."%";

$resultat = mysql_db_query($cfgBase, $sql);
$enr = mysql_fetch_array($resultat);

echo "<B>".($nb = $enr[0])."</B> message".($nb > 1 ? "s" : "");
echo " today";

// Nb msg yesterday
$date = date("d/m/Y");
$elts = explode("/", $date);
$hier = mktime(0, 0, 0, $elts[1], $elts[0]-1, $elts[2]);

$sql = "SELECT COUNT(id) ";
$sql .= "FROM ".$cfgTable." ";
$sql .= "WHERE approved = 'Y' AND datestamp LIKE '".date("Y-m-d", $hier)."%";
```
