May I ask how can I add additional fields to the postings? i.e. poster's country.

Many thanks,  
Raymond

Hey, I just finished hardening the Server here and i was wondering if someone that knows how to hack webservers can try and hack my server. most likely he won't succeed but i wont to make sure i did a good job. My site is [www.parkavebmw.com](http://www.parkavebmw.com) As i said the site is bullet proof but you can never be too sure.
