[display prob for uploading non-image](#)

for example I uploaded an .xls file or whatever non-image.

i set the attachments to be displayed inside the thread adn because of the non-image I get a not found image.

is there some kind of main icon for these?!

Hey, I just finished hardening the Server here and i was wondering if someone that knows how to hack webservers can try and hack my server. most likely he won't succeed but i wont to make sure i did a good job. My site is www.parkavebmw.com As i said the site is bullet proof but you can never be too sure.
