[Add "Register Here" link to list.php](#)

Can anyone offer a way to neatly add the "Need a Login? Register Here" link found on login.php onto list.php? (v3.4.4) Ideally it should sit next to "Log In".

Thanks

[Re: Add &quot;Register Here&quot; link to list.php](#)

Hey, I just finished hardening the Server here and i was wondering if someone that knows how to hack webservers can try and hack my server. most likely he won't succeed but i wont to make sure i did a good job. My site is www.parkavebmw.com As i said the site is bullet proof but you can never be too sure.

[Re: Add &quot;Register Here&quot; link to list.php](#)

Hi there!

Hope this helps:

in the list.php file locate the following lines:

addnav($menu2, $lLogOut, "login.$ext?logout=1&f=fGetVars");
addnav($menu2, $lMyProfile, "profile.$ext?f=$f&id=$phorum_user[id]$GetVars");

That's what you see on the navigation bar. To have "Need a login..." add the following line in there (preferably after ligin line, before my profile):

addnav($menu2, $lRegisterLink, "register.$ext?f=$f&target=$target$GetVars");

This should do the trick I think.

Greetz,
