a 3.4.1 tuned to the max (link)

DanSteph / March 29, 2004 05:20PM

[a 3.4.1 tuned to the max \(link\)](#)

- sticky post.
- number of view.
- last poster displayed in thread view and in forum root.
- complete new design.
- auto url any url recognised without need to "url" tag
- link to user's www, profile near each name in posts.
- new button in post form to modify your text (bold etc etc)
- link into each post "quote this post in my reply"
- rank system from number of posts.

It's possible even with the "old" 3.4

[Re: a 3.4.1 tuned to the max \(link\)](#)

Nice work! Still, I'm proud to say that you don't have a stats module :p

Check this: [\[www.wielerprono.be\]](#)

Give me 15mn and you'll have a stats module :)

I was thinking about it but just for admin.

Anyway I'm a bit tired of "stats" part I just finished this one:

[\[orbinauts.dansteph.com\]](#) (look statistic)

I checked you site it look very nice but the forum sill
need some tuning :)

Cheers,

Dan

[Re: a 3.4.1 tuned to the max \(link\)](#)

hehe, It does indeed...the thing is, the 2 hacks i tried to impliment did not work. Soobably end u writin them ourself, as we did the stats...

Any ideas on why these hacks don't seem to work? I mean, we're no total rooks.... :(

DanSteph / March 30, 2004 12:57PM

[Re: a 3.4.1 tuned to the max \(link\)](#)

What suck to death with the code is that there is absolutely no comments

Phorum 3 forums (READ ONLY) / Finished Mods and Plug-ins (READ ONLY)

a 3.4.1 tuned to the max (link)

so it's very hard to figure what's going.

Which hack interest you specifically ?

Dan

DanSteph / March 30, 2004 11:45PM

[Re: a 3.4.1 tuned to the max \(link\)](#)

I have no stats perhaps but now the index page show the 10 lasts posts in all forums : [orbiter.dansteph.com] :)

Cheers

Dan

DanSteph / April 30, 2004 05:52PM

[Re: a 3.4.1 tuned to the max \(link\)](#)

And now I added an online mailbox (only for registered user) the "who's online" function (same) and changed the "newer/older" browsing for the standard : "home 1 2 3 4 5" for navigating beetween pages....

If you like FREE space simulation (the best actually):

[orbiter.dansteph.com]

Dan

[Re: a 3.4.1 tuned to the max \(link\)](#)

can we plz have the attachements for "last 15 posts in all forums" and last "15 user" ?

Rolo / May 02, 2004 01:23PM

[Re: a 3.4.1 tuned to the max \(link\)](#)

I would like the to have the "sticky post" and the "automatic URL recognition" attachments.

Kan you please mail it to me at rolo[at]pcrrules.nl

[Re: a 3.4.1 tuned to the max \(link\)](#)

You will laugh, I think, but this is done under phorum 3:

[www.butovonet.ru]

Oh, it's in russian. You might not see characters correctly.

XeqtR / May 17, 2004 09:09AM

[Re: a 3.4.1 tuned to the max \(link\)](#)

nice, could you give us tip how to do that (code and instructions)

thx , XeqtR

[Re: a 3.4.1 tuned to the max \(link\)](#)

How did you get your icons to the left of the forums?

Mike.
