Does a hack for \*attachments by admin/mods only\* exist?

Need to constrain the use of attachments to the admin or moderators only but don't want to go to full moderation. Does something like this exist? I tried adding some lines in attach.php that I thought would do the trick (moderator only attachments) but they don't do the business:- ( FWIW I'm not a programmer in any way or form;~/ What I tried was...

```
<?php if(!$phorum_user['moderator']{  
$noattach=false;  
}  
?>
```

...and inserted it into line 172 of attach.php (Phorum 3.4.3a)

best wishes, Robert
