Avatar and changed look of the postings in read.php

Karfau / October 29, 2003 05:42PM

[Avatar and changed look of the postings in read.php](#)

I wrote a little mod, now it looks like at the pic "lookslikethis.jpg".

You are told how to install those changes in "howto.txt"

2 needed files are inside the "avatar_table.zip"

It works all fine for me, but its not so simple to install, therefor I post it here.

It would also be nice to have some options for user or admins targeting those changes, but I'm to lazy to do this work...

Comments [...] are wished

Greetings Karfau

[Re: Avatar and changed look of the postings in read.php](#)

Hm, the attachments got lost when i previewed the message, here they are

And images are not allowed, so I uploaded it:

Attachments:

- [howto.txt](#)
 - [avatar_table.zip](#)

[Re: Avatar and changed look of the postings in read.php](#)

Thank you very much for your mod. That's a good improvement and not so hard to install (and I'm close to zero in php !).

[Important update!. bug-killing](#)

Hi, Sorry for that:

When a user wrote whitout login/profile

-> the Avatar of the user posting the message above him was shown in the message understand...???

Well, now this bug is fixed with the new avatar_mod.php uploaded!!!

So long

Avatar and changed look of the postings in read.php

Karfau / November 14, 2003 08:13PM

[Re: Avatar and changed look of the postings in read.php](#)

It seems that there is a failure in the uploaded avatar_mod.zip.

I uploaded it by myself at this URL:

[\[www.karfau.de\]](http://www.karfau.de)

(the avatar_mod.php inside this zip is the new one!)

Thanx for the hint to Aaron McGuire

[Re: Avatar and changed look of the postings in read.php](#)

Does it works with Phorum 3.4.6 ?

Thanks.

[Re: Avatar and changed look of the postings in read.php](#)

Nice mod, I installed it recently and it works fine with phorum-3.4.6.

I added an extra bit to avatar_mod.php to resize all images to 85x85 pixels, this stops people using stupid image sizes and I think it makes the forum look cleaner as all the images are the same size.

[Re: Avatar and changed look of the postings in read.php](#)

Heres the modified avatar_mod.php, if you want to change the image size just change th e 85 for height and width.
